  - Agenda and resolution documents can be customized to match existing standards
- Search
- Users access application through web browser
- Easily create weekly agenda documents with details of submitted resolutions and supporting documentation

## **Fairfield County**

## **Resolution Management System**

The County Resolution Management System (CRMS) created by MAPSYS Inc., enables the Commissioners' office to electronically collect and manage resolutions submitted by county agencies or departments. Simple and intuitive resolution creation screens can be introduced to users with very little training. The system requires no investment in new software or hardware for the agencies or departments.

The Clerk to the Commissioners can manage, publish, and make last minute changes to the agenda quickly. Agendas can be stored for future reference and published to the web to be viewed publicly. CRMS can also be customized to maintain the resolution approval workflow.

## **Key Benefits**

- Improve the consistency of resolution format across all agencies.
- Easily make last minute changes to the agenda
- Ability to submit resolutions electronically
- Reduce Paper
- Ability to Provide Public access to agendas/resolutions
- Ability to search resolutions
- Can interface with existing imaging applications

"MAPSYS has helped us improve processes for managing and organizing Commissioners' resolutions. We have implemented procedures which have improved quality and efficiency for all departments. The company exceeded the scope of work to troubleshoot and correct problems, especially at the inception of the program. MAPSYS was instrumental in the training of departmental officials and always focused on customer service, which allowed us to promote the benefits of the system and facilitate positive change for the people we serve."

Carri Brown, County Administrator for Fairfield County

The Clerk to the Commissioners can manage the weekly agenda, add special entries, and organize the resolutions quickly. Resolution numbers can be assigned and easily reassigned if last minute resolutions must be added prior to a schedule session.

Following the weekly session the Clerk to the Commissioners can easily record the motions, document the votes, upload signature pages, and save results for resolutions.
